

Beaverbrook Tri-County Sportsmen

2025 Deer Rifle Sight-In

First — **Safety** is always our number one concern so here at Beaverbrook we live by the NRA's Firearm Safety Rules.

- * **Always keep the muzzle pointed in a safe direction**
- * **Always keep your finger off the trigger until you are ready to shoot.**
- * **Always keep the firearm unloaded, and the action open, until you are ready to use.**

When you come to the range, leave your guns in their case and bring them, and your ammunition, to the range building for the Range Safety Officer (RSO) to inspect.

When a “**Cease Fire**” is called everyone must unload and open the actions, place the firearm on the bench or rack and step back behind the yellow line. You **must** remain there until the RSO declares the range “**Hot**” only then may you approach and touch your gun and resume shooting.

Never argue with an RSOs if you do — you to be asked to leave.

Now for the business end of things.
